FROM CHANCELLOR

“

Welcome to MATS University, Raipur. We are one of Chhattisgarh's leading Pvt. Universities accredited with B++ by NAAC. We have set for ourselves a high benchmark, in terms of academic standards, transparency, accountability and governance.

True to our motto “Ready for Life”, we prepare our students to face the competitive world outside. Our highly qualified and experienced faculties, rich libraries, well equipped labs, excellent sports facilities and healthy campus life makes our University the best choice to pursue Higher Education. As you have chosen to study at MATS University, we assure you of a healthy learning atmosphere, where the education imparted to you will help you to carve mark your exclusive space after you complete your studies. And if you wish to pursue research, our University provides the right atmosphere and programmes for Doctoral Studies.

I welcome you once again to the rewarding journey of learning and bless you for a bright future ahead.

”

Gajraj Pagariya
Chancellor

Message FROM VICE-CHANCELLOR

“

Welcome to MATS UNIVERSITY - a university whose top priority is to help students to fulfil their aspirations and dreams. We work in tandem with students to design customized educational plans that meet their individual goals. Among other things, we offer our students a personalized learning environment with a great deal of flexibility and continuous mentoring. We integrate technical knowledge with strong ethics and leadership quality to churn out the best.

We are committed to moulding world-class leaders who make a difference to society. We inspire dreams, ignite curiosity, motivate actions, and define the vision beyond tomorrow. I am happy that you are considering MATS for your studies and I look forward to helping you take this exciting step in your life.

Our vision is to be recognized for high-quality academic programmes and research through industry programmes, excellence of our motivated faculty, and state-of-the-art facilities that we provide students. Our academic programmes prepare students better to face new challenges through stronger ethics and entrepreneurship components. We are committed to giving our students an environment, in which they develop critical-thinking and problem-solving skills.

At MATS, students are guided and motivated to practically implement the principles learnt in classrooms through experimentation in laboratories, making them confident and skilled professionals. As we strive to be at the fore front of education. We collaborate with and maintain excellent relationship with industries and leading research centres for joint projects, trainings, and internships. This gives our students an edge, which reflects fully in our high placement records year after year. Prof. K.P. Yadav is recognized as Vishwa Guru.

”

Prof. (Dr.) K.P. Yadav
(B.Tech., PGDBM, M.Tech., Ph.D. and Post Doc. D.Sc.)
Vice-Chancellor

Message

FROM PRO VICE-CHANCELLOR

“

Welcome to the galaxy of MATS University Raipur. English has become the world's lingua franca with three hundred and fifty million people in the world speaking English. English has now become a common language amongst Fashion Designers, Historians and Philanthropists. Here at MATS University we are trying to advocate English language, opening avenues of opportunities for students like acquiring good training facilities and improving skill developed knowledge amongst students. English learning and teaching would ensure students to become influential and purposeful communicators. This would enhance their conversational skill and business etiquettes garnished with an impact of multimedia technology to learn English as an essential medium for reading and writing.

”

Dr. Deepika Dhand
Pro Vice-Chancellor

Message FROM DIRECTOR GENERAL

“

MATS University is a destination to develop industry - ready human resource to meet the challenges of global competition. We strive towards making our students successful with high technical knowledge, professional leadership and entrepreneurial skills coupled with ethical values. The institution has stood for quality and excellence and strives to be the best in the years to come. We at MATS University prepare our students to make the best out of the available opportunities. Well qualified and experienced faculty & skill development trainers make sure that our students enhance their critical thinking, analytical and technical ability. The excellent faculty student ratio makes the campus one of the best places to study in the state. MATS University stands by its core values, mission and vision. Life at MATS leads the students to think high, aim high, adopt creativity, innovation and continue learning.

I take this opportunity to welcome you all and assure you all that the faith which you have entrusted upon us by choosing to study at MATS University will be well rewarded.

Welcome again and I wish you the very best in life.

”

Priyesh Pagariya
Director General

Message FROM REGISTRAR

“

Welcome to MATS University, Raipur ! The future belongs to those who shape the capabilities of young minds and at MATS we not only provide academic excellence and degree but also motivate and empower the students for being a lifelong learner, critical thinker and productive member of this ever changing global society. We encourage the students to achieve brilliance in their chosen fields of study with a concrete demonstration of the extraordinary passion and commitment, recognition for its proactive management, infrastructure and facilities, well- equipped laboratories with modern equipment, highly qualified faculty members. We apply the best practices in teaching and learning processes and the mentor-mentee concept connects teacher and the students with each other to understand the potential of student and teachers become friends in his/ her Journey at MATS University. Choice –Based Credit System (CBCS) with continuous assessment on grade point averages have made our students truly international.

The University always believes to transform its students into a holistic person and this requires an active participation of parents; therefore we remain in continuous touch with the parents, informing them about the performance of their ward through correspondence & dialogues.

I invite you to experience the outstanding facilities at the University and be a torch bearer of the new generation and promise a brilliant future with the confidence that the MATSONIANS will be stronger day by day and year by year, adding a new leaf to the grandeur of the University.

Gokulananda Panda
Registrar

”

MATS is very proud for having obtained B++ Grade from the National Assessment and Accreditation Council, Bengaluru in its very First Cycle, a rare feat for a Private University in Chhattisgarh. MATS University has always striven to achieve excellence in all its endeavors and this grade is just a certification of the performance by the most hard task master of the country i.e. NAAC.

This Internal Quality Assurance Cell (IQAC) methodically approached the target assigned to it with a "No Compromise on Quality" attitude and visited all the departments of the University periodically to check and suggest them the ways to ameliorate their performance. Regular audits of the departments strengthened them to excel and also enlightened them to showcase the best works already being done by them as a part of their routine. IQAC framed various policies of the University and four Research Chairs were constituted by the University to promote Research work. Under the initiation of IQAC different departments of the University organized National and International Seminars, Conferences and Workshops that helped to boost the environment for Research in the University. It is only due to the continuous efforts made by IQAC, the University was able to sign Memorandum of Understanding with various other like minded organizations to fulfill the aspirations of its stakeholders.

The Peer Team from NAAC that visited MATS was full of praise for the exemplary works done by the University in various fields and I feel it appropriate to quote a few of their comments below:

Regarding the claim that the University always makes about offering the most advanced and job oriented course to its students, the Peer Team says -

"The Curriculum Development Committee decides the Course Structure, Credit Distribution and the Common Courses to be conducted in various programmes. The University has Statutory Bodies namely, Board of Studies, Academic Council and Board of Management for approval of the courses so designed. An effort is made to implement industry oriented course curriculum considering the relevant Local, National and Global market and industry related needs and employability. The University continuously monitors and reviews the curricula of various undergraduate and postgraduate programmes. The University has adopted the Choice Based Credit System (CBCS) from the year 2015."

The strong Alumni base of MATS University has always been there to support the University and its students, wherever and

whenever they are asked for. Besides them the University itself offers a number of facilities to its students in order to help them to attain success in their endeavors. This is aptly recognized by the Peer Team, that says -

"University has Alumni Association registered which interacts with the students on various issues and arrange guest lectures and career guidance to help the students. They also donate books to the library and helps in organizing industrial visits. Some students have been benefited by the free ship and scholarship provided by the university besides Government schemes. Various capacity enhancement and development schemes like Guidance for competitive examinations, Career Counseling, Soft skill development, Remedial coaching, Language lab, Yoga, etc., are in place. Some of the students are benefited by the guidance for competitive examinations and career counseling offered by the university. Students have been placed for different positions in the last five years and some students have won awards/medals for outstanding performance in sports/cultural activities at state and national level. It has a transparent mechanism for timely redressal of student grievances including sexual harassment at work place and ragging cases."

Appreciating the aims and goals of the University, its leadership and observance of procedures, rules and regulations the Peer Team wrote -

"The Vision and Mission of the University are clearly defined. Decision making process is performed through bodies like Governing Body, Board of Management, Academic Council, Finance Committee, and Board of Studies. The Vice Chancellor ensures smooth functioning of the University for implementation of various policies and programmes. Senior officials and Heads of the Departments are encouraged to take decisions but only by with strictly observing the rules and regulations of the University. Good governance is taken care by the Chancellor, Vice Chancellor and Registrar of the University through regular monthly Academic meetings."

The above quoted views of NAAC Peer Team are definitely encouraging but are at the same time spurring too. IQAC vows to fortify the existing, envision the future in alignment to the Mission and Vision of the University, further strengthen the student support system and make the University more prominent and acclaimed for offering, besides quality services to all the stakeholders, Higher Education of supreme quality in tandem with the dynamic market requirement to send out the industry ready students along with special stress on Research and Innovation.

Established in 2006, MATS University is Chhattisgarh's the oldest Private University and consistently ranked in the top few Universities in Central India. Our reputation for excellence and breaking new ground has been forged by a continuous stream of exceptional people. We proudly count among top entrepreneurs, business owners and leading professionals as our distinguished alumni. Today, our vibrant culture continues to attract some of the best and brightest academic leaders as well as students from all over the country.

MISSION

To foster an intellectual and ethical environment in which the spirit and skills within MATS will thrive so as to impart high quality education, training, research and consultancy services with a global outlook and human values. To create and develop technocrats, entrepreneurs and business leaders who will strive to & improve the quality of human life. To create truly world class schools of Management Sciences, Engineering Sciences, Information Technology, Life Science, Basic and Applied Sciences, Humanities & Social Sciences and Life Skills.

VISION

To become a world class center in providing globally relevant education. MATS is a Global University, known for the quality academic programs and outstanding faculty, products and services to students and clients independent of place and time constraint. MATS University will be a benchmark institution for lifelong partnerships with students, the workforce and public and private enterprises. Building on its proud tradition, MATS University will extend educational opportunity to those who will make our state (Chhattisgarh), our nation and global society a better place to live and work.

2022

Convocation Ceremony Organized

Since its inception, MATS is progressing & prospering, emanating higher education & opening new avenues for Research work. The success of our alumni very suitably manifests the authenticity of this claim.

CAMPUSES

MATS University has 2 Campuses. The Main Campus is in Aarang and the City Campus is in Raipur.

AARANG

The Main Campus in Aarang is renowned for its modern architecture and lively atmosphere. Spread over an area of 100 plus acres, surrounded by lush greenery, it is located 42km away from the state's capital. This location offers best of both the worlds. It is well connected with Naya Raipur's Business Centre and Raipur's shopping district. Being distant from the city, it is free from day-to-day chaos and offers a serene and peaceful learning environment.

RAIPUR

The City Campus is centrally located and well connected with the railway station & bus stand as well as the airport. Due to its central location and easy accessibility, students enjoy the campus life as well as can work for part-time roles with our partner Business Houses and Corporates. The City Campus is close to Museums, Central Library, Science Centre and other learning destinations. The campus has its own Library, Media Centre, Seminar Hall, and Atrium which is at the disposal of students. Being in the city, the students can get involved in various social and creative activities that take place from time to time and gather new experiences in life.

REASONS TO CHOOSE MATS UNIVERSITY

LOCATED IN THE CAPITAL

Raipur being the capital of Chhattisgarh is one of the fastest developing cities in Central India. It has become a hub for business & education and offers good quality life. MATS University's Raipur campus is a 5 min drive from the city's business and cultural centers, as well as from the city's rail and bus stations. The University's main campus is located in Aarang which is a calm and peaceful town and a great place to study. It is located 35kms away from the main city connected by four lane road.

At MATS you will be surrounded by Chhattisgarh's history and culture, and close to its major attractions. These include the Ghasidas Museum, Guru Tegh Bahadur Museum, Chhattisgarh Science Centre, Ghadhi Chowk, Gandhi Garden, Marine Drive, Naya Raipur Jungle safari, Nandanvan Zoo etc. With all this at your doorstep, MATS offers the perfect base to enrich your student experience.

OUTSTANDING TEACHING

Students at MATS University learn under the guidance and support of exceptional academic staff. Operating at their disciplines' cutting edge discipline, they enthusiastically share their passion for new knowledge and encourage students' own pursuits of world-changing discoveries. The University also provides a wide range of student support services and opportunities, all of which are detailed in the following pages. This nurturing environment and unwavering commitment to the highest teaching standards enables students to achieve their potential to the fullest and make significant contributions to the world.

OUTSTANDING STUDENT SUPPORT AND FACILITIES

Each of our courses at MATS University is supported by excellent facilities. You will find Smart Classes, Expert Support, Research Laboratories, Workshops, Media

Centre, Library, learned faculties etc.

ACCREDITED COURSES

As part of our commitment to provide an industry-relevant curriculum, all our courses are accredited by or developed in partnership with the leading professional bodies. This will give you an edge while pursuing professional and competitive examinations. Our strong links with businesses and industries ensure that our programmes keep up with the latest needs of the relevant sector.

University Grants Commission (UGC), All India Council for Technical Education (AICTE), Bar Council of India (BCI), National Council for Teacher Education (NCTE), etc. are the regulatory bodies that accredit our programmes at MATS University. This ensures that you receive all the training, knowledge and set of skills you need to prepare for your chosen career.

EXCELLENT INDUSTRY PARTNERSHIPS

We're committed to give our students the best opportunities and education possible. As one of our students, you'll benefit from the industry leaders as guest lectures and the chance to be an intern or work in their organizations. Our students have successfully obtained internships and placements in companies like Reliance Retail, ICICI Prudential, IndusInd Bank, Mahindra & Mahindra, Force Automobiles and many more renowned companies.

AN AFFORDABLE COST OF LIVING

MATS University enjoys being among the lowest living costs in Raipur & Aarang Campuses. Compared to many areas, Raipur often has comparatively lower costs on items such as accommodation, travel, food, entertainment and shopping, while enjoying the same high-quality goods and services as the rest of Raipur Chhattisgarh.

GREEN CAMPUS

MATS Green Campus is an initiative by the University to control environmental pollution and to create a healthy ambience in and around 100 Acres area in which different departments of MATS University are located. The University makes every possible effort to work in tandem with nature by reducing the emission of green house gases and minimizing our Carbon Footprint.

The University has tied up with Namo e-Waste Management Company to take care of its e-waste. The University has made a huge investment and installed solar panels in both the Campuses. This is a step towards conservation of non-renewable resources and an eco friendly and economical alternative. Hon'ble Chancellor of the University- Shri Gajraj Pagriya says, "India is a country that receives plenty of sunlight, it is a shame that majority of it goes unharnessed. The country should utilize the gift and benefit from the same."

There are other environment-friendly initiatives taken by the University which include a compost pit for raw vegetable waste, a bio-composting plant for kitchen waste, a bore well for non-potable water for use in toilets, Green House and watering the plantation to reduce the consumption of municipal potable water. The campus harvests the rainwater to replenish and improve the ground water level and the quality of the well water. By opting for electronic chokes and LED bulbs and the segregation of waste into recyclable and non recyclable, MATS University attempts to create a clean-green atmosphere. At a time of such environmental crisis looming large over the world, it is the need of the hour to adapt environmental conscious approach. With its green initiatives, MATS University once again leads by setting an example.

Life is a balance of academic rigour and fun learning experience.

Studying at MATS University is about more than getting a degree - there's a wealth of opportunities open to you to develop personally as well as professionally.

Amongst the universities, we offer an exceptionally wide range of opportunities for you to gain the skills employers want, giving you a head start in the graduate recruitment market. From management training to business placements, from student volunteering programs to cultural activities, from world-wide network of study opportunities to career advice from our own successful graduates, there is a wealth of opportunity to add value to your CV.

Here are some of our strengths and successes :

1. Mentor Mentee System
2. Institutional Social Responsibility
3. Regular update of Curriculum as per the need of the Employers and Markets
4. Student Centric Teaching Learning Methods
5. Properly Defined Program & Course Outcomes
7. Microsoft Innovation Center
8. Bosch Industry Academic Center
9. Internal Quality Assurance Cell
10. Media Center
11. Dedicated ERP
12. Psychological Counseling by Professional Counsellor

ACCOMODATION @ MATS

“Preparing them for Life” is our motto and also to cultivate among the students the value of discipline and co-operation. We are deep pocketed with enthusiastic motivated and committed staff to take care of young minds –to make them feel at home away from home. Tuning students to the real life aspect, we take special care for all necessary requirements. Hygienic lush green environment of MATS Hostel, maintains good health of our students and results in their overall physical development. With the best amenities and the desire to study hard in a friendly atmosphere we ensure that the child gets the homely feeling. Students, who come from other states, get exposed to different culture, religions and customs. We indulge students by providing amenities and groom them to manage their routine independently.

Hostel runs comprehensive proficiency programmes and we take care in supporting our students talent. Students are encouraged and are participating in various muster of sports and academic pursuits.

HOSTEL AMENITIES

- Separate Hostels for Boys & Girls
- 24×7 Security
- Well-furnished rooms
- Wi-Fi facility
- Indoor games (Carom, Badminton etc)
- Laundry Facility
- Accommodation for more than 1000 students
- Hot and Cold Water
- Banking Facility
- ATM Facility
- Transportation
- Medical Facility
- Regular interaction of students with University administration

SPORTS @ MATS

OTHER FACILITIES

CENTRAL LIBRARY

A central library is situated in both the campuses with latest books, journals, research papers, study material and books for competitive exams. Daily Newspapers, and fortnightly & monthly Magazines are also at student's disposal. Besides Central library some departments have their own libraries as well for the subject specific books and journals.

TRANSPORT

The Transport Service (optional) is operated by the University and a separate transport fee is charged for this. For supervision and monitoring a transport attendant is on board throughout the journey.

GYMNASIUM

Well equipped gymnasium is available within both the campuses for students as well as faculty. Physical activity is good for your mental health. Regular exercise can also boost your self-esteem and help you concentrate, sleep and look & feel better.

AMBULANCE

An in-house Ambulance is available for any emergency situation and is deployed 24x7 in the main campus.

CAFETERIA

Delicious snacks, refreshing cold and hot beverages are available in the cafeteria present in both the campuses. The Cafeteria is run by third party contractors under the strict vigilance of University Administration. This space normally becomes the place for group discussions, debate on the latest topics of national & global importance.

ENHANCE YOUR DEGREE

As a student at MATS University you'll have many opportunities for local and global engagements. You will be encouraged to develop skills and learn through your studies.

Personality Development & Soft Skill Training

Personality Development refers to enhancing an individual's approach to interact with others. This plays an essential role not only in individual's professional life but also in their personal lives. This helps in gaining recognition and acceptance from society as well as people around. By keeping these things in mind we conduct Personality Development Classes every week without disturbing the regular classes. As we not only want to boost the Intelligence Quotient (IQ) but also want to our student to obtain balance in their Emotional quotient (EQ). So that apart from managing their professional life they can manage their personal lives too. Personality Development includes Interpersonal skills, Decision Making, Conflict Resolution, Emotion Management etc. All these topics include theory with some related activities that make the class more interesting for the students.

So, for doing this our main motto is to make our students the Best Version of themselves.

Yoga & Meditation

Yoga is a holistic and mindful practice that includes physical movements (asana), breathing (pranayama), Meditation (dhyana) and relaxation (savasana). This practice cultivates body awareness, promotes physical movements, and creates intimacy with one's internal landscape (e.g. emotion, thoughts etc).

Yoga and meditation should be the part of everyone's lifestyle. This contributes directly to improve mental focus and concentration. As Students already go through a lot of stress and academic pressure but by adding this practice it helps in balancing the pressure, improving their concentration and they are better focused.

By adding this into our curriculum we are trying to make our students adopt this as a part of their life style so that they can contribute more and more into their life and ultimately contribute to a better world.

So, for doing this our main motto is to make our students the best version of themselves.

Communication Skill

Communication is bit different from conversation. As communication is a two way process in which participants not only exchange information, new ideas and feeling but also create and share meaning. It bridges the gap between individual and group through flow of information and understanding between them.

Now a days the most demanded skill that an employer is looking in his employee is great communication skills. So, keeping this in mind we are training our students to enrich their communication skills by providing them classes along with some practical activities.

By communicating correctly, most of the problems can be solved easily. So, communication is important not only in professional life but in the personal life too.

And last but not the least, only highly skilled communicators are more successful in their life and career.

French Language

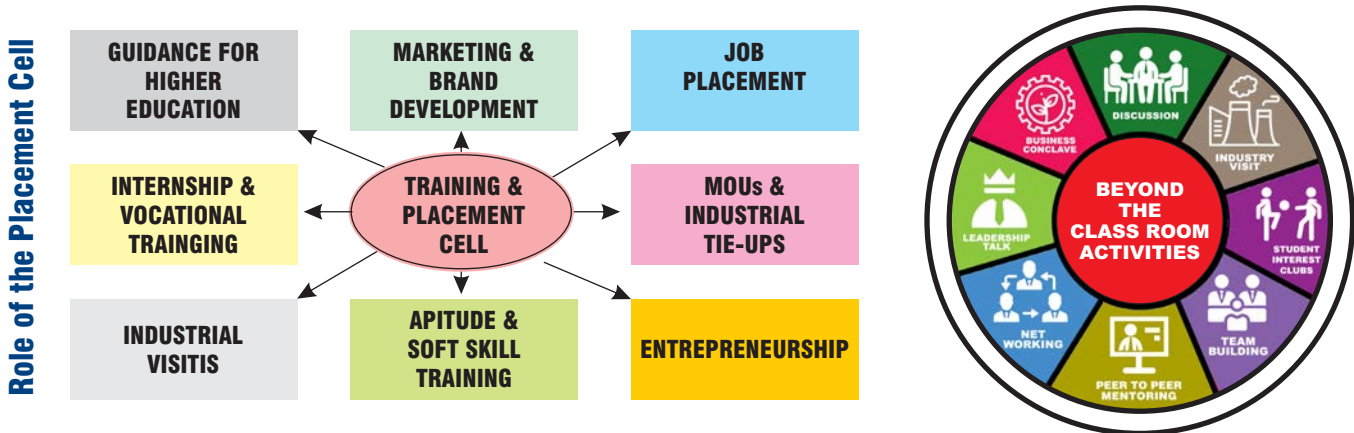

In today's era, learning one continental language like English is not enough. Learning another language enriches the mind and opens up new horizons, both personally and professionally. French is a major language of international communication. French is also the second most widely taught language after English, and is taught in every continent. The ability to speak both French and English is an advantage for finding a job with many multinational companies using French as their working language, in a wide range of sectors (retailing, automotive, luxury goods, aeronautics, etc.). Therefore we make our students learn French as a Value-added course in our University and therefore our faculties like to put on songs in French and involve their students in French-language festivals. Our students learn French, which helps them to express themselves in this language. We provide Certificates to the students after the completion of the course.

CAMPUS TO CORPORATE - CENTRAL PLACEMENT CELL

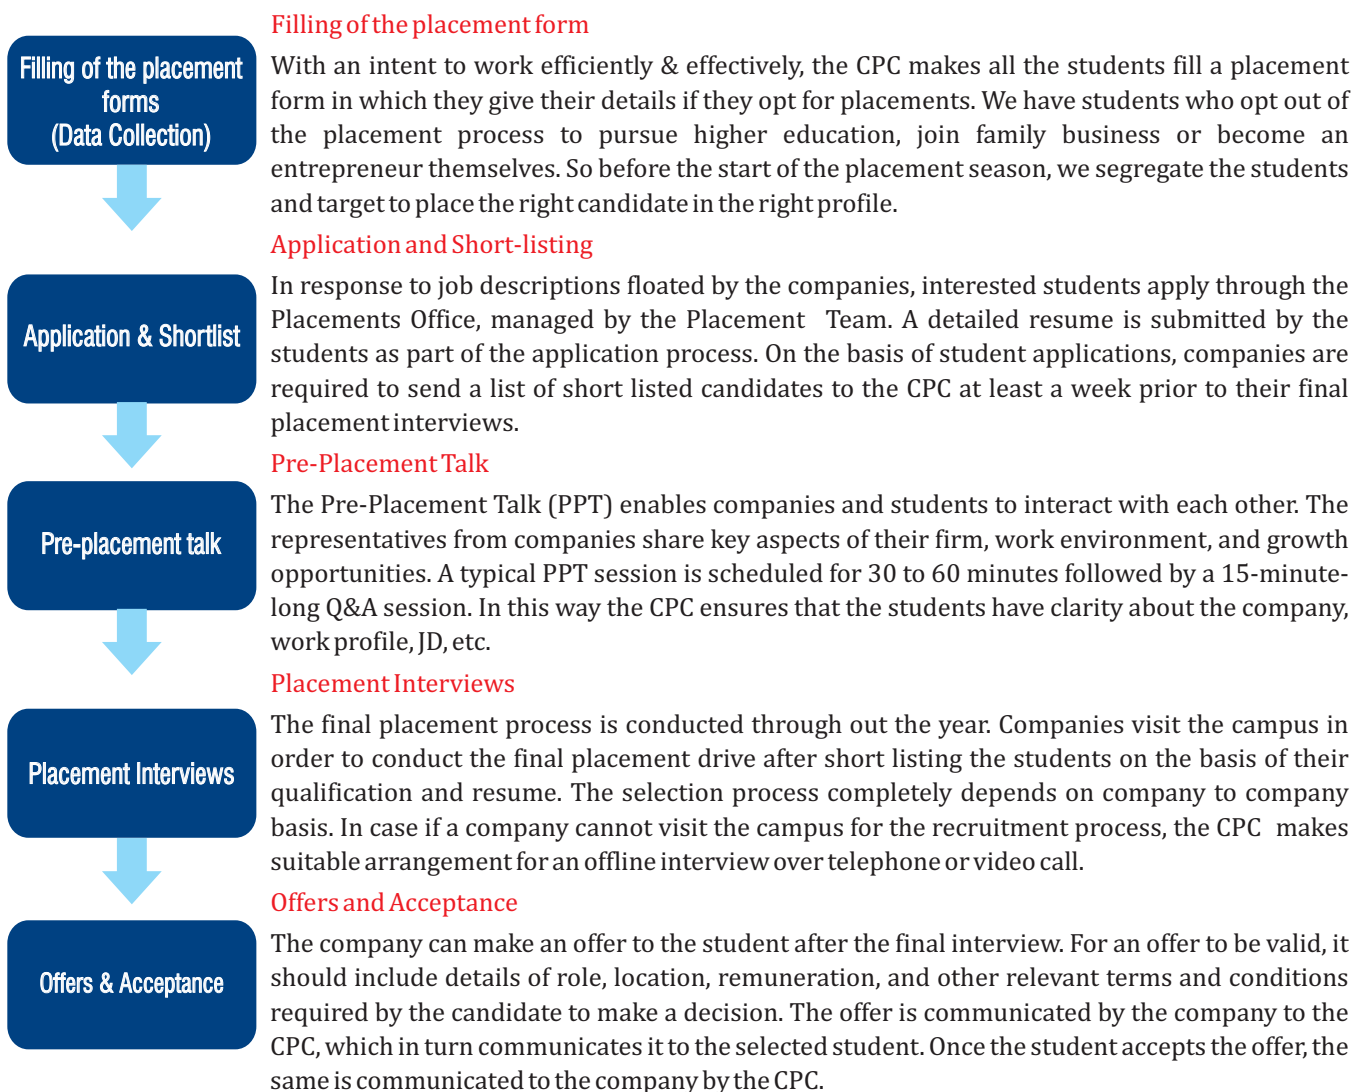

Central Placement Cell was established with the motive to serve as a student-industry interface. This Cell has been constantly working in this direction since 14 years now.

The CPC also plays the role of a career development centre for the students. Grooming them, preparing them to face the dynamic corporate and industrial work culture is the primary intent of the CPC.

MODUS OPERANDI OF THE CPC

The Central Placement Cell handles the entire placement process, which includes Corporate Interactions, Internships, Pre-Placement Processes, Campus Drives and the final Placement Processes.

RESEARCH PROGRAMS

Research is the edge on which MATS University is building its repertoire in this competitive and global arena. At present the University is offering Ph.D. programmes in Twelve schools of excellence that equates to twenty one subjects in all scholars are awarded Doctorate Degree by the University and we have registered Research Scholars in various subjects. The University strictly adheres to the regulatory procedures right from admission till the award of the degree. The University has also procured Urkund- Ursa Minor software for plagiarism check to maintain quality research in the University.

University conducts Ph.D. entrance examination twice in a year, that are, in the first week of February and that of September and after qualifying the entrance, all the processes till the award of the degree are followed as per UGC (Minimum Standards and Procedure for award of M.Phil/Ph.D. Degree), Regulation 2016 & The University Ordinance for Ph.D.

SUBJECTS

- ▶ Chemistry ▶ Biochemistry ▶ Management ▶ Law ▶ Psychology ▶ Hindi
- ▶ Microbiology ▶ Biotechnology ▶ Commerce ▶ Yoga ▶ Social Work ▶ Bio Science
- ▶ Library Science ▶ English ▶ Education ▶ Computer Science & Appl. (IT)
- ▶ Computer Science ▶ Mechanical ▶ Civil ▶ Electronics ▶ Applied Geology
- ▶ Electrical ▶ Mathematics ▶ Physical Education

MATS School of Engineering & IT has been educating professional engineers for more than 10 years. The school's expertise covers Aeronautical, Civil, Computer Science, Mechanical and Mining Engineering. Students of the School are supported by some outstanding technical facilities. The design and manufacturing workshops feature the Machining Technology, Industry-standard Lathes and Metal Sheet Cutters. The school also houses a range of laboratories including a Robotics laboratory, an Electronics laboratory, Aero dynamics & propulsion lab and a Thermodynamics laboratory.

DEPARTMENT OF CIVIL ENGINEERING

The Department of Civil Engineering pulls out all stops to create outstanding engineers - with advanced teaching techniques and learning aids for undergraduate students and state of the art research facilities for postgraduate students and doctoral candidates. Students are not only made experts in technical aspects but also in interpersonal skills, a vital ingredient to excel in the fast-paced world.

Keeping in mind, the necessity of sustainable construction practices and quality construction, the Department now offers two Honors courses under its B. Tech. program:

1. Construction Management
2. Green Technology & Sustainable Engineering

Well qualified and experienced faculty members form the department. They specialize in structural, geotechnical, environmental, water resources, transportation, surveying, and construction engineering, as well as management, remote sensing and GIS. The faculty members contribute to academic development by publishing and presenting papers in international and national journals and conferences.

Department Labs : | Transportation Lab | Geotechnical Engineering Lab | Surveying Lab | Civil Engineering Materials Lab | Concrete Technology Lab | Structural Engineering Design Lab | Fluid Mechanics Lab | CAD/CAM Lab | Water Resources Engineering Lab | Engineering Geology Lab

DEPARTMENT OF AERONAUTICAL ENGINEERING

The Department is involved in activities supporting our national ambitions in the field of Aeronautical Engineering. The Honors program offered by the Department of Aeronautical Engineering specializes the students with the Design and Operation of UAVs. (Unmanned Aerial Vehicle). The state-of-the-art laboratories offers adequate facilities to the students to design build and fly remotely controlled/auto-controlled model aircraft including UAVs.

Well qualified and experienced faculty members are there in the department of Aeronautical Engineering. They specialize in flight mechanics, aircraft propulsion, aircraft structural, avionics, aircraft materials, aerodynamics, UAV's and aircraft design. The faculty members have an excellent research base with research publications in renowned journals and several chapters in books. At present, few projects from the department are in process of receiving research grants as well as necessary approvals from renowned funding agencies & competent authorities.

The Department was established in 2011 and offers B.Tech./ B.Tech. (Hons.) program in Aeronautical Engineering.

Department Labs : Aerodynamics Lab | Aircraft Structure Lab | Propulsion Lab | Aircraft Instruments Lab | Aircraft Design Lab | Avionics Lab | Aero Engineering Thermodynamics Lab | Aircraft Hanger with MIG 21 | UAV Lab

DEPARTMENT OF MINING ENGINEERING

The Department of Mining Engineering aims to produce Mining Engineers of high caliber, fully equipped with state-of-the-art Technology, to cope with the challenges of Sustainable Development in Mining and Mineral Industry. The Department thrives to be recognised nationally and internationally as one of the leading institutes in research and providers of quality engineers in field of Mining Engineering. Seeing the rising demand and privatization of the Mining Sector, the department now provides a Honors program of Mining & Mineral Processing under its B.Tech. curriculum. Mining Engineers are responsible for locating natural reserves of minerals, petroleum, and other useful natural resources and lay out the plans, device shafts, inclines or quarries for the safe extraction of these resources from under the earth. The natural resource can be coal, petroleum, metallic or non-metallic minerals, etc. While planning to extract the natural resource from under the earth a mining engineer also has to keep into mind workers health, safety and welfare. Well qualified and experienced faculty members from the department. They specialize in Mine Environment, Mine Machinery, Surface Mining, Mine Geology, Mineral dressing, Mine Surveying, and Rock mechanics, as well as management, remote sensing and GIS.

Department Labs : | Mine environment | Mine ventilation | Mining Geology | Rocks mechanics | Mine Surveying|| GIS and remote sensing

DEPARTMENT OF COMPUTER SCIENCE ENGINEERING

The educational objectives of the department are to produce graduates who are recruited in a competitive market and make valuable contributions to a wide variety of industries, particularly in computer and information technology; succeed in graduate or professional studies; pursue life-long learning and continued professional development; and undertake leadership roles in their profession, in their communities, and in the global society. Keeping pace with the Digital India initiative, the Department is offering two Honors courses under the B.Tech. course:

1. Artificial Intelligence & Machine Learning
2. Internet of Things

The department has well qualified and experienced faculty members having subject expertise in various core and in demand subjects. They specialize in data mining, networking, machine learning, IoT, artificial intelligence, network security, compiler designing, web technologies as well as management, image processing and cloud computing.

Department Labs : | Programming Lab | UNIX & Networking Lab | Web Application Development Lab | Digital Electronics Lab | ECNT Lab | Hardware & Networking Lab | Virtual Lab

DEPARTMENT OF MECHANICAL ENGINEERING

The Department of Mechanical Engineering, established in the year 2008, produces graduates who can meet the rapidly changing needs of industry. Vision of the Department is to deliver world-class education and research in Mechanical Engineering, with particular regard to their application in industry, healthcare and commerce in a diverse society. It has an ambience and specialized laboratories for R&D. Undergraduate students get opportunity to involve themselves in high-end research work to build skills beyond curriculum. In addition to classes, the department organizes regular visiting lectures delivered by Industry Experts and arranges industrial visits for both faculty and students. Postgraduate and Ph.D. scholars are engaged in high-end research and publication activities.

The Department offers the following Honors programs under its B.Tech. course:

1. Robotics
2. Energy Engineering

Well qualified and experienced faculty members from the department. They specialize in Thermal, Machine design, Robotics, CAD/ CAM, production, etc. Students of Mechanical Engineering benefit from a research-led teaching culture. Our expertise is in applying engineering science to solve problems of industrial and societal significance. They can undertake projects related to the Department's research strengths.

Department Labs : | Dynamics of Machines Lab | Fluid Mechanics/Machinery Lab | Metrology & Instrumentation Lab | IC Engine Laboratory | Refrigeration and A/C Lab | Heat and Mass Transfer Lab | Engineering Mechanics Lab

DEPARTMENT OF ELECTRICAL & ELECTRONICS ENGINEERING

The Department of Electrical & Electronics Engineering (EEE) aims to produce qualified engineers who can tackle problems of varying complexity, adapt to changes in the electrical sciences field, and apply protocols based on standard guidelines. Students gain skills in core subjects such as power electronics, electrical power transmission and distribution, power systems analysis, etc. Apart from these, there are many professional and open elective subjects to choose from, such as energy technology, management, electronic design, computer programming etc.

Teaching & Learning: Beyond classroom teaching, faculty members undertake consultancy projects which provide students with opportunities to learn through real-world industry and research work. Seminars, symposiums, and conferences organized throughout the year connect students to experts from outside the institute, introduce them to new developments in the field of Electrical and Electronics Engineering and help them build networks. Research at the Dept. of EEE encompasses a wide range of areas to advance discoveries in the design and application of circuits, power systems, and electronic equipment. Research areas include power systems analysis engineering, renewable energy systems, computational intelligence and mathematics, power electronics converters and their applications, and smart grid and applications.

Department Labs : | Basic Electrical Engg. Lab | Network & Devices Lab | Measurement & Instrumentation Lab | Power Electronics Lab | Renewable Energy Lab | Simulation Lab

SCHOOL OF ENGINEERING HIGHLIGHTS

- B.Tech. CSE Student Sweta Padma Prusty represented MATS University Internationally at Association of University of Asia Pacific at English Speech Competition.
- B.Tech. CSE Student Deekshant Yadav secured Second position in the State Level Competition event of “Web Template Designing”.
- B.Tech. Aeronautical Engg. Students Suraj Sharma and Rahul Raj got selected in Hindustan Aeronautics Limited.
- B.Tech. Mining Students selected in Coal India.
- Students from all the Branches consistently qualifying in GATE Examination.
- MATS University's Institute Innovation Council (IIC) has received 3.5-star rating by MHRD for the last academic year.
- A Government Sponsored Research Project from CGcost is going on in Mechanical Engineering Department.
- Many Research Centres of Excellence & state-of-the-art Laboratories and Workshops for extensive study.
- Highly Competent faculty with rich Industry and Academic experience tutor students on curriculum that meets global challenges and the needs of employers.
- Over 20 MoUs for academic collaborations.
- Scholarships and Awards for academic excellence. Sponsorship and training for participation in National and International events and competitions.
- Excellent Placements record in reputed firms such as Deloitte, Infosys, L&T Info Tech, Capgemini, Ramco Systems, Mahindra & Mahindra, HCL Technologies, Ernst & Young, Honeywell, CDG Boeing, USA to name a few.
- Scope for Extracurricular Activities such as NCC, Sports, and Cultural.
- Well-furnished Cafeteria serving Continental and Indian cuisines.
- Separate Hostel accommodation for boys and girls with option for single/double/triple sharing and AC/Non-AC rooms.
- Faculty members and research scholars of School of Engineering and I.T. have more than 150 publications in SCI/ Scopus indexed journals.
- Till date 04 Ph.D. have been awarded in the School of Engineering and I.T.

Global Understanding Programme (GUP) :The GUP provides platform for students to learn about others cultures without traveling. Among 23 universities of the world participating in GUP programme, Students of MATS University interacted with students and teacher of different university world wide.

French Language: French is also one of the best foreign languages to learn for jobs in corporate sectors in India. Many multinational companies use French as their working language in a wide range of industries. Students are groomed in foreign language to cater the needs of global business environment

Workshops: MATS School of Management and research organized various workshops to deliberate on new thinking and new initiatives in the direction of various areas. This workshop also discussed research based new models, tools, techniques and mantras originating from

India and other.

Corporate Interaction: In today's environment, build up knowledge ultimately erodes your power and thinking. At MSMSR, emphasis is given to academically brilliant, true leaders and team players, in turns preparing for the real life corporate world. This is done by engaging people from industries and top institutions to provide priceless information to our students.

Industrial Visits: Industrial visit is a part of the management course, during which students visit different companies to get insight of the internal working condition of the company which cannot be visualized in lectures. Industrial visit is considered as one of best methods of gaining practical knowledge. Its help students to know things practically through interaction, working methods and employment practices.

Student Achievements

Amitesh Mishra
(BBA)

Fastest Long Distance Skater from India

First Indian to Finish 16th in Long Distance Race in World Championship in Senior Men

Ishan Bhatnagar
(BBA)

Silver Medalist in Mixed Double Scottish Open International Challenge at Glasgow 2021

World Badminton Top 100 Rank Holder

RECOGNITION : MATS School of Management Studies & Research is recognised by the All India Council for Technical Education since 2009 and MATS University comes under the umbrella of UGC.

INDUSTRY EMBEDDED PROGRAM: All the programs running in MSMSR have Choice Based Credit Systems (CBCS). 24 Percent of the total credits are exclusive to Industrial Internship embedded program.

INTERNSHIP AND PLACEMENT: The summer Internship Program conducted after the first year also attracts an equally overwhelming response from the corporate world. Internship is compulsory & Credit based for each and every student.

MANAGEMENT FEST (MANCH) : MSMSR every year organizing inter college management festival "MANCH". The highlights of this cultural festival are various events that interoscultate the participants to expose themselves in arena of entertainment with high level of competition.

OUTBOUND LEARNING ACTIVITIES: MSMSR believes that students huddled up all the times in a class will hardly have an opportunity to open up the vistas of their mind to allow the spanking ideas pour in or a novel thought germinate. The students got an opportunity to explore the industrial and business tactics of different countries.

CSR ACTIVITIES : Fostering social consciousness among students is one of the unique features of MATS school of Management studies and research. It lays great emphasis on inclusive and sustainable growth of people and communities.

On-Line Webinars: Since the students are stuck at home with not much to do, we keep organizing Webinars, Special Guest Lectures, Workshops and Management Fest to help students maintaining their learning zeal and getting a step ahead towards fulfilling their goal.

MATS Law School has been delivering professionally accredited courses for over a decade and prides itself on producing successful Law graduates. The School offers various undergraduate and post graduate courses in law. From crime and litigation to corporate and securities related laws which are industry acclaimed and are required and recognized nationally and internationally. There's a range of exciting courses to choose from. The School also operates a very popular Legal Advice Clinic where law students can volunteer and gain real world experience by helping pro bono in and around the vicinity of the university. Graduates of the School go into a wide range of careers and sectors. They become Judges Advocates, Legal consultant, Law Officer, Solicitors, Barristers, Paralegals, Legal Executives and Academician. Our Law School also boasts of contributing students, pursuing masters from various nationally and internationally reputed universities all around the globe.

Recognition : MATS University is established by C.G.Act 29 of 2006 under Private University Act 2005 as an amendment in 2006. MATS Law School, MU is recognized by University Grants Commission (UGC) and has been approved by Bar Council of India.

The Centre of International Human Rights and International Criminal Justice System

The Centre of International Human Rights and International Criminal Justice System at MLS is to foster research in contemporary issues which are persistent. This center gives students opportunities to discuss current issues such as refugee and asylum laws, extradition treaties, international smuggling, etc.

Moot Court

MLS Boasts of a dedicated moot court hall for simulation of courtroom activities within the university. It is essential that students are ready and confident to grapple with post law-school challenges and moot courts contribute to achieving this goal.

Recognition and Accreditation:

All the courses run by MLS are affiliated by UGC (University Grants Commission) and has been approved by BCI (Bar Council of India). MATS University is the first private university in Chhattisgarh to be accredited with NAAC rating of B++.

The Department of Information Technology was established in 2008 with the vision "To empower the technical skills of students and equip them with new technical, trends to create well endeavored society with high tech facilities for quality survival in transforming worlds." The Department of Information Technology offers its stakeholders 3 Under-graduation, 3 post-graduation and 2 Diploma courses to make them skilled in Technical domain. The world is moving very fast towards the fully automated technical era using AI, IOT, Cloud Computing, Big Data analytics, Sentimental Analysis and Areas of Forecasting. It focuses all the new trends coming to the market and trying to provide academic excellence through its advance curriculum. It also provides students centric facilities like MATS Incubation Cell, Training and Placement Cell, Mentor Mentee system, time to time Students. Psychometric analysis by Professional Counselors, Lectures by Eminent Speakers and Interaction Program, Personality Development Classes etc.

Chhattisgarh's 1st & only University providing Bachelor Degree in Animation & Graphic Design (BSc A&GD) More than 20 students established entrepreneurship with the help of our department.

Excellent and latest syllabi of MCA to meet needs of software Industry.

Compulsory Internship/Industrial project for both UG & PG programs.

Mats School of Information Technology started its Journey in 2008 under the Umbrella of MATS University. Our Programs Focuses on more Practical Approach rather than Theoretical Studies of Computing Modules

INFRASTRUCTURE AND LABS

Computer Labs: Well equipped computer Labs with all high-end software and advanced configuration desktop machines along with a Research lab for research scholars with all latest software.

Media Center & Graphics Design Lab: The Media Lab is an interdisciplinary center within the Department of IT for experiments with digital forms of design and learning. Animation and Graphics Designing is a practical oriented course, therefore the focus is on Film Making, Video & Audio Editing, New Media, Digital Culture and Technology.

IIT Bombay X Remote Centre: A Remote Centre of IIT Bombay X which is an open online learning platform aimed at alleviating some of the issues of higher education in the country. It offers four types of MOOCs to meet personalized requirements of scholars in different phases of their lives. It provides courses for academics/education (EduMOOCs), for working professionals and others desiring to pursue life-long learning (LifeMOOCs), for Skill Development and Vocational Training (SkillMOOCs) and for teacher training (TeachMOOCs).

Vibrance 2021 a cultural event of voice and moves introduced to bring the talent on stage. This was an open competition for class XI onwards participants with highly attractive prizes. The event inclusive of very charming fashion show, folk dance, rap battle and singing competition organized on 15/11/2021. More than 150 participants from different schools and colleges of Raipur have shown their talent in the event.

A workshop on "Career and Chances in IPR" was organized at MSIT, MATS University for students. Mr. Prabhat Malik was the key speaker of this Workshop. The main purpose of this one day Workshop was to introduce basic on career growth. Key speaker shared a lot of things with the students. He said to understand the real world and

opportunity grape. Finally, It was a nice experience to listen to the key speaker in this enlightening workshop.

MSIT, MATS University, Raipur Conducted Training programs like Office Automation, Desktop Publishing, Python, Tally, PHP, Java, Graphic Designing, Animation, Video Editing, .Net, JS etc. Our training program was very helpful to the students in giving the necessary background information.

Azadi ka Amrit Mahotsava, The department has organized various competitions, like Quiz Competition, Rangoli Competition, Drawing Competition etc. to celebrate the day.

MATS School of Business Studies is the biggest department of MATS University running since last 15 years and it's the largest department with 650+ students, the department constitutes the well qualified faculty members with vibrant areas of specialization. Apart from the sound academic background the department provides wide platform to students for skills development and also gives opportunity to students for industry interaction, as well the highlighted event of the department is the Start Ups & Incubation by leading students for New Business Set Up and under the COVID period the MSBS departments conducted various Online Webinars and students Interactive session from various Industry Experts and renowned delegates from and across the country.

- MSBS provides Free Diploma Market Oriented Certificate Courses such as (Tally/GST/Stock Market) B.Com (Hons.) & M.Com as a part of curriculum
- Students of MSBS focus on all major areas for career growth and also qualified various competitive examinations and got selected in CA-103/ICWA-23/CAT-109/PSC/Banking/Civil Services-141/Students Studying Abroad-140/Start Ups/Self Venture-2000+
- MSBS also provides platform to students to learn the Family Business Entrepreneurship and also students undergoes Project on it
- MSBS has provided students the opportunity for Start Ups/ Incubation and 20+ Start Ups are running successfully and many more under progress
- Campus Placements of the department is 98% and students are recruited in the reputed Corporate Houses across country

More About MSBS : The MSBS department also bought laurels as the students won various awards and accolades in Intra & Inter University Sports and Cultural fests and also won the Best Department in the University. Also the department conducts syllabus revision and is updated form the industry experts as per the requirements of market.

Special Attractions

Industry Oriented Courses: MSBS provides industry valued course curriculum which is well designed in accordance to the subject and market experts as well to make students skillful for Industry Interface.

Internship and Placements: The Internships and Placements for the Students of MSBS is conducted yearly in Final Semester of B.Com (Hons.) and 2nd & 4th Semester of M.Com to provide students the practical exposure and Industrial Induction by providing

Recruitments in reputed Industries.

Talk Sessions: MSBS also regularly conducts various Expert Talk Session under “SAMWAD” by inviting the dignitaries from various Sectors of Industry and provide students corporate training and consultancy in field of Commerce and Business.

Industry Academic Interface: MSBS has also tie-ups with various Corporate Houses/Industries/Banks and other Commercial Institutions for continuous up gradations in pedagogy and methodology for students development and shape them according to the changing needs of the market.

CSR Activities: MSBS also create value orientation amongst the students apart from academic all round development, the students of MSBS are involved in various Corporate Social Responsibilities as a part of their lifestyle and were also engaged in various social initiatives through the Pandemic and also connected with various NGO's.

MATS School of Science, started in year 2008 with aim to create technocrats putting emphasis on basic knowledge of science with the challenge of imparting good quality education, presently the department offer undergraduate and post graduate degree in Biotechnology, Biology, Biochemistry, Botany, Chemistry, Mathematics, Microbiology and Zoology.

MATS University's science program will offer you a competitive advantage in the job market and train you for professional success. You'll learn a variety of transferable skills that employers in fields other than traditional sciences, such as manufacturing, finance, education, and communications, appreciate.

Our cutting-edge facilities allow us to offer advanced education with a focus on hands-on learning, and we consistently partner with industry to ensure you'll be prepared with the most up-to-date skills for your selected profession.

- Completely internship embedded programs with free industrial trip.
- Add-on Certificate Course on Drug Designing and Molecular Docking with all running programs.
- We groom learner for the best job an entrepreneur.
- Continuous augmentation, training and hands-on for the development of learning skills of the students.
- Syllabus curriculum reflects academic excellence in both theoretical and practical aspects. MATS School of Sciences adapted all Under Graduate Courses as per NEP-2020 and offering 3 years Bachelor Degree and 4 Years Research Base Degree along with certificate courses.
- Get best knowledge about Science and Technology, which help you to get ahead. Multidisciplinary research in biological sciences and chemical sciences

INFRASTRUCTURE & LABS

Life Science Lab:

Plant Tissue Culture Lab (Inoculation Room), Separate Biotechnology & Microbiology

Research Lab:

Chemistry Lab: This lab is facilitated with every required chemical & solution along with physical balance, digital conductivity meter, digital potentiometer, magnetic stirrer with hot plate, spring balance, pH meter, water distillation unit and Kipp's apparatus.

Central Instrumentation Lab:

The central instrumentation facility is equipped with Cooling Centrifuge, Rotary Flask Shaker, Autoclave, Vertical Gel Electrophoresis, UV Trans-illuminator, Gel Rocker, Gel Dryer, Electronic Weighing Balance, Digital Colony Counter, B.O.D. Incubator, Bacteriological Incubator, Hot air oven and all other necessary instruments which are required for excelling in the field of life science.

CAREER PROSPECTS

The industries in the applied field of biological sciences and chemical sciences are constantly growing from last few years and human resources in those fields have grown drastically. Today, Indian biotech, microbio and chemical sector, comprises of lot many companies and bio suppliers, generating ample amounts of revenues. Indian biological and chemical industry comprises of clinical research, new drug discovery, bioinformatics, R&D, pharmaceuticals etc. These industries have rapid growth rate per annum. As there is increasing popularity and explosive growth, there are plenty of opportunities available in relevant field. One can be a Research Scientist, Teacher, Marketing manager, Scientific Writer, Bioinformatician, Quality Control Officer or Production in-charge in the Food, Chemical and Pharmaceutical industry, Analyst, Environmental / Safety

Specialist etc.

Key Opportunities

- Pharmaceutical
- Food & Dairy
- Research Scientist
- Agriculture and Forestry
- Drug Designing
- Environmental Analyst
- Teaching
- Quality Control & Quality Assurance
- Medical/ Scientific Script Writer
- Production in-charge
- Medical Laboratory Assistance
- Clinical Research and Data Analyst
- Food Processing and Preservation

SCHOOL OF ARTS & HUMANITIES

Eligibility : PG & Entrance Exam

The School of Arts and Humanities, Department of English caters to the skill development of students in English Language, Literature and Mass Media that equips a student to meet the challenges of his/her future endeavour and it provides a mutually supportive and positive learning environment. The depth of understanding and expansive perspective provided by engagement of students with media houses and eminent researcher has taken the department of English to a prominent position which is the hallmark of MATS University.

B.A. (Honours) English with Mass Communication is a unique course provided only by MATS University in Chhattisgarh.

MATS University with the accreditation and acclamation of being the leading University of Chhattisgarh stands firmly to provide quality education even during this pandemic circumstance. The institution has accepted the challenge of worldwide shut down and transformed the ongoing limitations and restrictions into new opportunities to facilitate the students.

To combat the challenges and to revitalize the teaching-learning process, the University has introduced technology based online portals and platforms to execute academic, examination and administrative works smoothly. MATS School of Arts & Humanities, Department of English started its online classes first in Zoom then shifted to Google Meet and now in Microsoft Teams proving individual user ID to each student.

On-Line Classes: So as to, not hamper students' course and session completion, we have started online classes that bring the regular and the less-regular students as well in the same platform to study in a very pleasurable way by staying at their own destination.

On-Line Assignments: We keenly focus our attention towards students' level of understanding and engagement on each and every lesson taught in the classes. Now students are highly satisfied with on-line assignments as it lightens their rigorous

academic pressure.

On-Line Examination: We have been successfully conducting students' Term-End/ Semester examination in the online mode. On-line examination and evaluation process definitely helps the students to get their result without much delay.

On-Line Webinars: Since the students are stuck at home with not much to do, we keep organizing Webinars and Special Lectures to help students maintaining their learning zeal and getting a step ahead towards fulfilling their goals.

ऑनलाइन रचनात्मक गतिविधियाँ

हिन्दी विभाग द्वारा विद्यार्थियों एवं शोधार्थियों के सर्वांगीण विकास के लिए विभिन्न सम-सामयिक विषयों पर राष्ट्रीय संगोष्ठी एवं रचनात्मक गतिविधियों का निरंतर आयोजन किया जाता है। कोरोना महामारी के दौर में विभाग द्वारा सभी पाठ्यक्रमों की कक्षाओं के साथ विभिन्न रचनात्मक गतिविधियों का आनलाइन आयोजन किया गया।

रचनात्मक गतिविधियाँ

- प्रतिवर्ष अखिल भारतीय कवि सम्मेलन
- राष्ट्रीय हिन्दी दिवस समारोह
- विश्व फोटोग्राफी दिवस
- विश्व पर्यटन दिवस
- शिक्षक दिवस
- राष्ट्रीय एवं अंतर्राष्ट्रीय संगोष्ठी
- राज्य और देश के प्रसिद्ध विषय विशेषज्ञों का व्याख्यान
- स्वस्थ शरीर और स्वस्थ मन के लिए नियमित योगा

प्रतियोगी परिक्षाओं की तैयारी

विद्यार्थियों के कैरियर निर्माण करने के उद्देश्य से 12वीं, स्नातक तथा स्नात्कोत्तर के उपरांत राज्य एवं केंद्र सरकार द्वारा आयोजित की जाने वाली विभिन्न प्रतियोगी परीक्षाओं

अधोसंरचना एवं सुविधाएँ

मीडिया सेंटर – मीडिया के व्यावहारिक ज्ञान के लिए विद्यार्थियों के लिए मीडिया सेंटर की स्थापना की गई है। यहाँ विद्यार्थी कैमरा संचालन, वीडियो एडिटिंग, एंकरिंग, रिकार्डिंग तथा समचार निर्माण का प्रशिक्षण प्राप्त करते हैं।

कम्प्यूटर प्रशिक्षण – विद्यार्थियों को रोजगारोन्मुखी बनाने के लिए निःशुल्क कम्प्यूटर प्रशिक्षण प्रदान किया जाता है। इस

की निःशुल्क तैयारी कराई जाती है। इस हेतु विषय विशेषज्ञों द्वारा विद्यार्थियों को उचित मार्गदर्शन प्रदान किया जाता है।

ऑनलाइन अतिथि व्याख्यान

लॉकडाउन के दौरान विद्यार्थियों के लिए विभिन्न रचनात्मक गतिविधियों का आयोजन ऑनलाइन किया गया। वर्ष 2020 में आयोजित अतिथि व्याख्यान में छत्तीसगढ़ के वरिष्ठ साहित्यकार एवं कवि श्री मुकुंद कौशल ने विद्यार्थियों को हिन्दी साहित्य में लेखन की विभिन्न विधाओं से अवगत कराया।

ऑनलाइन फिटनेस ट्रेनिंग

‘फिटनेस मंत्र’ विषय पर ऑनलाइन अतिथि व्याख्यान में शरीर सौष्ठव के क्षेत्र में मिस्टर वर्ल्ड का खिताब हासिल कर चुके साउथ के सिने अभिनेता श्री पवन शेटी एवं शरीर सौष्ठव के राष्ट्रीय खिलाड़ी, प्रशिक्षक एवं अंतर्राष्ट्रीय निर्णायक श्री संजय शर्मा ने विद्यार्थियों को फिटनेस के बेसिक टिप्स दिये जिससे युवा पीढ़ी स्वयं को स्वस्थ रख सके। विशेषज्ञों ने विद्यार्थियों को ऑनलाइन वेट ट्रेनिंग की आधारभूत तकनीक का प्रशिक्षण भी दिया।

हेतु कम्प्यूटर लैब की व्यवस्था है। विद्यार्थियों को हिन्दी एवं अंग्रेजी दोनों भाषाओं में कम्प्यूटर टंकण के प्रशिक्षण के साथ मूलभूत जानकारी दी जाती है।

स्मार्ट क्लास – विद्यार्थियों को आधुनिक तकनीक का उपयोग करते हुए शिक्षा प्रदान की जाती है। इसके लिए स्मार्ट क्लास की व्यवस्था की गई है।

SCHOOL OF ARTS & HUMANITIES

Department of Social Works & Research Centre

Programs

M.S.W.

Master of Social Works
Eligibility : Graduation
Duration : 2 Years

Ph.D.

Doctor of Philosophy
Eligibility : PG & Entrance Exam

Social work is a multidisciplinary knowledge discipline based course. Economics, Political Science, Anthropology, Psychology and Sociology etc. have drawn most of the knowledge and principles from the disciplines, but while all these disciplines study the theoretical side of human-society and human-relations, Social-work deals with relations. Along with exploring the causes of the coming differences and social change at the grassroots level, it also studies the psychosocial side of the individual and solves those problems. The conduct of a social worker who does social work is oriented towards establishing relationships with individuals, families, small groups or communities through a learned simultaneous intervention in problems. For this social work discipline produces well trained and professional workers. Social work is a process of helping individuals in an individual, group or community, so that the client can help himself. Through this, the client is able to solve his own problems arising in the present social situation. Social work is aware of every aspect of the client's life and every social situation operating in his environment because he cannot ignore them while planning the service delivery. Social work is an educational and vocational discipline that provides service on the basis of its six systems of social work. Through these methods, it tries to raise the standard of living of people and groups. Social work means improving the capabilities of the client by encouraging the interaction between the individual, group, community and their social environment through necessary interventions based on the client's permission. So that they can solve their problems while fulfilling the necessities of their life. In this process, social work helps in fulfilling the aspirations of the client and helping them to live up to the test of their own values. Those who are provided service in social work are called Client. Like in the field of medicine, the service the doctor renders is a patient for him. In the same way, a person who takes service in social work is called a client.

Psychology is the study of the mind, it's thought, feeling and behavior, It is an academic discipline which involves the scientific study of mental faculties, functions and behavior. Department of Psychology, established in 2018, is one of premier departments of the University, incessantly offering various academic programs at U.G. and P.G. levels, Doctoral research work leading to Ph.D. degree in various fields of Psychology. Department of Psychology aims to be a leading institution of Psychology in India with strong and vibrant programs that develops exemplary psychologists, create cutting-edge relevant knowledge, and engage in responsive interventions that lead to personal and social transformation.

PROGRAM DESCRIPTION

This program not only focuses on the problems and difficulties people encounter the world over, but also on their health, hopes, opportunities, aspirations, and fulfillment of goals. Our mission at MATS is to produce graduates who are responsible, in touch with the human aspect and visionary contributors to the discovery, dissemination, and application of psychological knowledge. As a graduate, you will acquire the skill to apply principles of behavior to human concerns and values in the world community and at the same time be proficient to pursue various career options in the businesses and human services.

Future: Due to more demand in health care centers, hospitals, mental health centers, social health services and schools will lead to the growth of employment in **Psychology** sector. With the increase in the aging population, mental problems, physical problems the need of **Psychologist** is increasing.

Essentially, **Psychology helps** people in large part because it can explain why people act the way they do. With this kind of professional insight, a **Psychologist** can **help** people improve their decision making, stress management and behavior based on understanding past behavior to better predict **future** behavior.

MATS COLLEGE

Programs

Shri Gajraj Pagariya Ji, the visionary Chancellor of MATS University always desired to serve the society and give it back whatever he could in the best possible way. Carrying out his this vision under the Institute's Social Responsibility Program, the University established a college in its Main Campus. The purpose of establishing this college is to cater to the Higher Educational needs of such residents of nearby villages/area like Kharora, Baloda Bazar, Aarang, Mahasamund, Rajim, Basana , Saraipali etc. And specially Gullu where the Main Campus of the University is located, at a subsidized cost, who find it impossible to go for quality higher education as it is way beyond their means to afford it. As per this program, students are offered the similar quality higher education as offered to the students of MATS University at a cost that is 80% lower than it and that too in the same premises with same physical and academic facilities. This has proved immensely beneficial to the rural population residing in the vicinity of Main Campus. Increasing number of beneficiaries every year amply testifies success of this humble attempt of MATS University to serve the society.

- Best education amongst all colleges in this area (Balodabazar, Kharora, Aarang, Mahasamund, Rajim, Saraipali, Basna etc.)
- Best Result in all discipline
- NCC for all Students
- Special Classes for English and Competitive Examination
- Industrial Visit and Placement Activities
- Chancellor's Scholarship for all students as well as Government Scholarship for category students

जनसहयोग और जागरूकता से जीती जा सकती है कोरोना के विरुद्ध जंग : अनुसुइया उइके

मैट्स यूनिवर्सिटी द्वारा आयोजित वेबिनार में राज्यपाल ने युवाओं की भागीदारी को बढ़ाने का किया आह्वान

शैक्षणिक सत्र-2021-22 के बोध का वर्चुअल विमोचन

रायपुर (विश्व परिवार)। राज्यपाल सुश्री अनुसुइया उइके ने कहा है कि कोरोना संक्रमण के इस संकट से पूरा विश्व संघर्ष कर रहा है। हर वर्ग इस महामारी से प्रभावित हुआ है। सामाजिक, आर्थिक, राजनीतिक, शैक्षणिक, वाणिज्यिक, औद्योगिक हर क्षेत्र महामारी से प्रभावित है। संकट के इस काल में आवश्यकता है सही समय पर सही निर्णय लेने की और यह संभव है जागरूकता से। महामारी से निपटने के लिये युवाओं की भागीदारी को बढ़ाए जाने की आवश्यकता है।

भविष्य में युवाओं की भूमिका' विषय पर आयोजित वेबिनार में कहीं। इस अवसर पर उन्होंने मैट्स विश्वविद्यालय के सत्र 2021-22 के श्रांश का वर्चुअल विमोचन किया

एवं विश्वविद्यालय द्वारा कोरोनाकाल के दौरान नियमित रूप से जारी ऑनलाइन शैक्षणिक गतिविधियों को सराहना की। उन्होंने कहा कि इस वास्तविकता को नकारा नहीं जा सकता कि बिना जन-सहयोग के अकेले सरकार द्वारा इस संकट से उबरना संभव नहीं है। जन-सहयोग के लिए आवश्यक है लोगों का जागरूक होना। कोरोना को पूर्णरूपेण समाप्त करने के लिये हर व्यक्ति यह संकल्प ले कि वह अनिवार्य रूप से मास्क का उपयोग करेगा, बार-बार हाथ साफ करेगा, स्वच्छता रखेगा व सोशल डिस्टेंसिंग का पालन करेगा। इसके साथ ही पात्र व्यक्ति वेक्सीन लगाकर इस

महामारी से उबरने में सहयोग प्रदान करें। ये स्वयं के साथ अपने परिवार, समाज, राज्य व राष्ट्र को सुरक्षित रखने में अपनी महत्वपूर्ण भूमिका निभायें। लोग धीरे-धीरे वेक्सीन को लेकर जागरूक हो रहे हैं किन्तु अभी भी ग्रामीण क्षेत्रों के साथ-साथ शहर के लोगों में भी आनेकें प्रतिक्रिया हैं जिन्हें जागरूकता के माध्यम से दूर किया जा सकता है। वेक्सीन लगाने के बाद भी हमें पूरी सावधानी रखनी आवश्यक है।

वेबिनार में राज्यपाल ने युवाओं की भागीदारी को बढ़ाने का किया आह्वान।

सुश्री उइके ने कहा कि इस महामारी के दौर में हम सभी का यह सामूहिक दायित्व और कर्तव्य है कि हम सभी एकजुट होकर इस संकट से उबरने में जन-सहयोग में अपनी-अपनी भागीदारी सुनिश्चित करें। महामारी से प्रभावित समाज के जरूरतमंद लोगों तक राहत और सुविधाएं पहुंचाने में सामाजिक संस्थाएं, राजनीतिक दल शासन-प्रशासन के साथ मिलकर कार्य करें। महामारी से बचाव हेतु आज टीकाकरण, लिये लोगों को जागरूक करने की महती आवश्यकता है और इसमें वि.वि. के छात्र, शिक्षक, प्राध्यापक महत्वपूर्ण भूमिका निभा सकते हैं। इस दौरान मैट्स विश्वविद्यालय के विद्यार्थियों और प्राध्यापकों ने कोरोना के खिलाफ दिये गये अपने योगदान के अनुभवों को भी साझा किया। अपने अध्यक्षीय संबोधन में

कुलाधिपति श्री गजराज पगारिया ने कहा कि माननीय राज्यपाल द्वारा पूर्व में भी उच्च शैक्षणिक संस्थाओं द्वारा कोरोनाकाल में जागरूकता अभियान के प्रति प्रेरित किया गया था। इस पर अमल करते हुए मैट्स विश्वविद्यालय के प्राध्यापकों तथा विद्यार्थियों द्वारा पोस्टर, स्टोलन, आडियो-वीडियो प्रॉफिकस के माध्यम से लोगों को महामारी के प्रति लोगों को जागरूक करने के प्रयास निरंतर जारी है। प्राध्यापकों, अधिकारियों, कर्मचारियों तथा छात्र-छात्राओं द्वारा सोशल मीडिया के विभिन्न प्लेटफार्म वेबसाइट, व्हाट्सएप, फेसबुक, इंस्टाग्राम और मैसेज, ई-मेल आदि के माध्यम से टीकाकरण अभियान के लिये प्रेरित किया जा रहा है। अकादमिक गतिविधियों के अंतर्गत ऑनलाइन समय के विद्यार्थियों और प्राध्यापकों ने कोरोना के खिलाफ दिये गये अपने योगदान के अनुभवों को भी साझा किया। अपने अध्यक्षीय संबोधन में

A Ragging Free Zone

MATS is a ragging-free campus.
Ragging in any form is strictly prohibited and would attract severe disciplinary action and the punishment of expulsion from the University.

Ragging has been defined as:

“Any act causing, inducing, compelling or forcing a student, whether by way of a practical joke or otherwise, to do any act which detracts from human dignity or violates his person or exposes him to ridicule or forbears from doing any lawful act, by intimidating, wrongfully restraining, wrongfully confining, or injuring him or by using criminal force to him or by holding out to him any threat of such intimidation, wrongful restraint, wrongful confinement, injury or the use of criminal force”.

All students admitted to the MATS and their guardians are required to sign an undertaking that their ward will desist from indulging in ragging.
